PREMIUMS

Payment of Premiums

Policyholder must remit to Us the sum of all premiums collected and due for each Insured covered under The Policy. Premiums are payable in advance to our Administrative Office. The first premium is due on the Date of Issue shown on the Certificate Schedule. Each subsequent premium is due when the period covered by the preceding premium ends.

Grace Period

Policyholder has a grace period of 31 days from each premium due date, except the first, in which to pay the premium then due. Coverage will continue during the Grace Period. Policyholder is liable for the premium due during the Grace Period.

Reinstatement

Coverage under The Policy may be reinstated, while the Insured is alive, at any time within five years after the date of Lapse subject to Our acceptance of a Certificateholder's application for reinstatement. However, the Coverage cannot be reinstated on or after the Expiry Date.

If the premium due is paid within 60 days of the due date (within 29 days after the end of the Grace Period) and during the Insured's lifetime, the Coverage will be reinstated without Evidence Of Insurability.

If the premium due is not paid within 60 days of the due date (within 29 days after the end of the Grace Period) Reinstatement will be subject to Evidence Of Insurability satisfactory to Us. All overdue premiums must be paid with interest compounded annually at 6% from their due dates to the date of reinstatement.

THE DEATH BENEFIT

Death Benefits available to an Insured are determined in accordance with the Death Benefit provision of The Policy. The Guaranteed Death Benefit, Deferred Paid-Up Term Death Benefits and One Year Term Insurance for a given Insured vary according to Issue Age, Mortality Table, Rate Class, Premium and Non-Guaranteed Credits described in The Policy. Given the variability of these factors, the Guaranteed Death Benefit, Deferred Paid-Up Term Death Benefits and One Year Term Insurance for a given Insured are only illustrated in the Certificate Schedule and Illustration issued to the Certificateholder. The following provisions govern the calculation of the Death Benefit:

Guaranteed Death Benefit

While premiums are being paid, the Policy provides for an initial level Guaranteed Death Benefit during the Initial Guaranteed Death Benefit Period. After the Initial Guaranteed Death Benefit Period, the Guaranteed Death Benefit equals the Reduced Guaranteed Death Benefit. The guaranteed death benefits and death benefit periods are shown on the Certificate Schedule.

The Guaranteed Death Benefit is equal to the sum of the Guaranteed Paid-Up Term Death Benefit and the Decreasing Term Death Benefit. The Guaranteed Death Benefit Coverage terminates without value at the Expiry Date shown in the Certificate Schedule.

Guaranteed Paid-Up Term Death Benefit

The Guaranteed Paid-Up Term Death Benefit is equal to the accumulated amount of paid-up term insurance purchased by a level portion of the Coverage annual premium. This premium is shown on the Certificate Schedule. During the Vesting Period, the premium loads shown in the Certificate Schedule reduce this level portion of the premium. The table of Guaranteed Paid-Up Term Death Benefits is shown in the Certificate Schedule.

If the Coverage lapses because of unpaid premiums due during the Vesting Period, the Coverage will terminate with no value. If the Coverage lapses because of unpaid premiums due after the Vesting Period accumulated paid-up term insurance Coverage will remain in force until the Expiry Date.

Decreasing Term Death Benefit

The Decreasing Term Death Benefit is equal to the Guaranteed Death Benefit minus the Guaranteed Paid-Up Term Death Benefit. The Decreasing Term Death Benefit terminates when premiums are no longer being paid.

Deferred Paid-Up Term Death Benefit

We may purchase a non-guaranteed Deferred Paid-Up Term Death Benefit on each Date of Issue Anniversary while the Coverage is premium paying. A Deferred Paid-Up Term Death Benefit will not provide an increase in the death benefit while the Coverage is premium paying except as noted in the One Year Term Death Benefit provision. It will increase the paid-up death benefit available upon termination of premium payments, provided that premium payments are paid through the Vesting Period shown in the Certificate Schedule. The company will declare Non-guaranteed Credits in advance of each Certificate Year that will be used to purchase the Deferred Paid-Up Term Death Benefit.

Non-guaranteed Credits

Credits are based upon interest and mortality more favorable than that guaranteed by The Policy. The total credit on each anniversary is equal to the sum of the Mortality, Survivor and the Excess Interest Credits. These Credits may not be less than zero.

The Mortality Credit is equal to i times ii times iii divided by iv:

- i. The Guaranteed Death Benefit.
- ii. The guaranteed mortality rate minus the current mortality rate.
- iii. One plus the current interest rate raised to the one half power.
- iv. One minus the current mortality rate.

The Survivor Credit is equal to i times ii times iii divided by iv:

- i. The Deferred Paid-Up Term Death Benefit on the prior anniversary.
- ii. The current mortality rate.
- iii. One plus the current interest rate raised to the one half power.
- iv. One minus the current mortality rate.

The Excess Interest Credit is equal to i times ii times iii:

- i. The sum of the Guaranteed and non-guaranteed Deferred Paid-Up Term Death Benefit on the prior anniversary.
- ii. The current interest rate minus the guaranteed interest rate.
- iii. The net single premium rate for Paid-Up term insurance.

The Guaranteed Death Benefit, current mortality rate, net single premium rate and interest rate for calculating the above Credits are determined as of the prior anniversary and are based upon rates declared in advance of the Coverage Year. Current rates are based upon Our future expectations of mortality and interest and are not calculated to recover past losses or distribute past profits. If We change current rates on in force Coverage under The Policy, the changes will be made uniformly for all insureds for a given age, Mortality Table and Rate Class as shown in the Certificate Schedule. If we change the current rates under The Policy, We will send the Certificateholder a Notice on the Coverage Anniversary Date on or following the date of the change in rates.

The additional Deferred Paid-Up Term Death Benefit as of the current anniversary is equal to the amount of Deferred Paid-Up Term Death Benefit on the prior anniversary plus the sum of the total Credits divided by the net single premium rate for paid-up term insurance on the current anniversary.

Once earned, the Deferred Paid-Up Term Death Benefit is guaranteed and will not decrease except in years where it is used to purchase One Year Term insurance.

One Year Term Insurance

After the Initial Guaranteed Death Benefit Period, a portion of the value of the non-guaranteed Deferred Paid-Up Term Death Benefit will be used on each anniversary to purchase One Year Term Insurance equal to the reduction in the Guaranteed Death Benefit. If there is not enough value to purchase One Year Term Insurance equal to the reduction in the Guaranteed Death Benefit then as much One Year Term Insurance as the value will allow will be purchased.

The One Year Term Insurance premium is equal to i divided by ii:

- i. Current mortality rate
- ii. One plus the current interest rate raised to the one half power,

Where the current mortality rate and interest rate is determined as of the current anniversary.

The amount of Deferred Paid-Up Term Death Benefit will be reduced by the amount needed to pay the One Year Term Insurance Premium based upon the net single premium rate for paid-up term insurance.

Early Fully Paid-Up Coverage

If the sum of the Guaranteed and Deferred Paid-Up Term Death Benefit is greater than or equal to the Initial Guaranteed Death Benefit prior to age 100, the Coverage will become paid-up for an amount equal to the sum. No further premium payments will be due.

Death Benefit Calculations

In any Certificate Year, while premiums continue to be paid, the amount payable upon death of the Insured will be:

- a. Guaranteed Death Benefit in effect, in that year; plus
- b. After the Initial Guaranteed Death Benefit Period, One Year Term Insurance, if any; plus
- c. the premium paid beyond the date of death; plus
- d. interest, not less than required by law, from the date proof of death is received by Us to the date the claim is paid; minus
- e. any unpaid premium due and unpaid at the date of death.

In any Certificate Year after premiums have been paid thru the Vesting Period and the Coverage has Lapsed due to nonpayment of premiums, the amount payable upon death of the Insured will be:

- a. the Guaranteed Paid Up Term Death Benefit; plus
- b. the Deferred Paid Up Term Benefit, if any; plus
- c. interest, not less than required by law, from the date proof of death is received by Us to the date the claim is paid.

No Death Benefit is payable in the event that death occurs after Coverage has Lapsed, and the Lapse occurred prior to the end of the Vesting Period.

Payment of Proceeds – Settlement of the death benefit shall be made by payment in one sum.

The proceeds are subject to any adjustments provided in the Misstatement of Age or Tobacco Usage, Contestability and Suicide provisions.

Death of Beneficiary

If any Beneficiary predeceases the Insured, the portion of the proceeds that would have gone to that Beneficiary shall be paid to the Insured's Estate.

Multiple Beneficiaries

If there is more than one Beneficiary, proceeds shall be divided equally among the Beneficiaries unless the Beneficiary designation specifies the amount to be paid to each Beneficiary.

Facility of Payment

We may pay all or part of the death benefit to any person who paid any expense in connection with the Insured's last illness or death. That person must give us a copy of the receipt describing the expense and the amount paid for such expense. Reimbursement will not exceed \$1,000. The death benefit will be reduced by any payment made under this provision.

COVERAGE VALUES

Basis of Values

All paid-up term insurance amounts, present values and net single premiums for The Policy are based on the Mortality Table and interest rate shown on the Certificate Schedule. Calculations take into account that premiums are paid annually and that death benefits are payable uniformly throughout the Certificate Year. Any additional benefits provided by Riders shall be excluded from these calculations.

Certificate Schedule of Guaranteed Values

The Certificate Schedule of Guaranteed Values shows the guaranteed values at the beginning of the Certificate Year on the assumption that premiums have been fully paid in cash for the completed years stated.

If premiums for this Coverage are paid other than annually, adjustments will be made in calculating guaranteed Paid-Up term insurance values for that portion of the Certificate Year for which premiums were actually paid.

Guaranteed paid-up term insurance values for the end of any Certificate Year not shown in the table will be furnished upon written request to Our Administrative Office.
